Tender: Development of Centralized Access Control Integration System — B. BIRDS (Border Incident Reporting & Documentation System) - Phase II
e-GP tender tracking no.: 1347267

DEMONSTRATION GUIDE

BIRDS (Border Incident Reporting & Documentation System) - Phase II

This guide takes the Technical Evaluation Committee through the application demo so that each of the 58 items of the Technical Specification can be seen working. Part 2 is a storyline of ten short scenes (about 45–60 minutes) that follows one incident from filing to closure; Part 3 is an optional tour of the value additions (scene 11); Part 4 lists every item with where to show it, for questions on a single item. Texts in quotes are the exact labels on the screen.

Demo address	https://birds-demo.onrender.com
API documentation	https://birds-demo.onrender.com/api/docs

Role	Username	Password	Unit / scope
HQ Administrator	hq_admin	Admin@123	HQ (all units)
Sector Officer	sector_off	Sector@123	Sector-7
Battalion Operator	batt_op	Batt@123	17 BGB
Verifier/Approver	verifier	Verify@123	Sector-7
Auditor	auditor	Audit@123	HQ (read-only audit)

1. Before the session

a. The day before: reload the demonstration dataset (DEMO_RESET=yes npm run db:demo against the demo database, about 3 minutes; server/prisma/demo/README.md), restart the server, then sign in once with each demo account. The dataset has 130 incidents from April 2025 to October 2026 at 32 BOPs in 5 sectors, every workflow state, 361 evidence files (photos, videos, PDF documents), messages, groups, a call log and about 2,500 audit entries. Places are real; people and events are fictional.

b. Ready-made records, if there is no time to file a new one: BIRDS-2026-1072 (drone over BOP Himchari: photos with camera data, night video, Bangla PDF; Verified and overdue; the verifier can Approve); BIRDS-2026-1080 (Submitted; sector_off can Review, Return or Reject); BIRDS-2026-1075 (Reviewed; the verifier can Verify); BIRDS-2026-1068 (Approved; hq_admin can Close); BIRDS-2026-1067 (Returned to batt_op with a reason); BIRDS-2026-1070 (full history: returned, edited, resubmitted, reviewed, verified, approved, with comments); BIRDS-2025-1002 (archived); the drafts of batt_op, BIRDS-2026-1082 and 1083.

c. Open the demo in three browsers (Chrome, Edge and Firefox) or three browser profiles, signed in as batt_op, sector_off and verifier. Keep hq_admin and auditor for a fourth window. One session per user is allowed, so each account must be in its own browser.

d. Have a phone and a tablet ready on a network that reaches the demo, with BIRDS installed from the browser as a progressive web app (Chrome: "Install app"; iPhone/iPad Safari: Share › "Add to Home Screen") and notifications turned on (for scene 9 and the value additions).

e. Keep a small photograph, a short video and a Word or Excel report on the computer used for filing (scene 2).

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

f. Projector at 100 % zoom; switch the language to English (EN) at the start.

2. Demonstration storyline

Scene 1: Sign-in and session security (items 3, 4, 27, 28, 29)

#	Account	Do this	Point out (spec items)
1	—	Open the demo address. Point to the HTTPS padlock. Try a wrong password once.	Generic error message; encrypted connection (4, 27)
2	hq_admin	Sign in. Open the user menu (top right) › "My profile".	"Where you're signed in" and "Recent sign-in activity" (28)
3	hq_admin	Administration › "Security & system": show "Password policy & lockout" and "Session controls".	Configurable length, complexity, failed-login threshold, lockout and idle timeout; "Single active session" (28, 29)
4	hq_admin	Sign in as hq_admin in a second browser; return to the first, then sign in there again.	The first session is ended: concurrent-session control (28)
5	hq_admin	Administration › "Users & roles": show users with role and "Scope / unit"; open "Add user".	Role and scope per user (3)

Scene 2: Filing an incident (items 5, 6, 7, 8, 9, 10, 11, 15)

#	Account	Do this	Point out (spec items)
1	batt_op	Sidebar › "New incident". Step "Basic information": title, category and sub-category, severity, date and time.	Standard electronic form; configurable categories and severity (5, 6, 7)
2	batt_op	"Next: location": Sector, Battalion and BOP are limited to the user's unit; press "Detect GPS" or a "Quick location presets" button.	Organisational hierarchy and GPS (8, 9)
3	batt_op	"Next: details": narrative, persons involved, action taken, outcome; "Click to upload evidence files" and add the photo, the video and the Word or Excel report.	All incident details; photos, videos, PDFs and office documents (7, 10)
4	batt_op	If "Possibly already reported" appears, open it, then continue. Press "Submit report".	Duplicate warning (value addition); a unique number BIRDS-<year>-NNNN is issued (15)
5	batt_op	On the incident page, open the photo; note the author and created date shown for the report; under Evidence press "Verify integrity".	File name, size, upload time, camera date/GPS, document author and dates, SHA-256 kept (11)

Scene 3: Workflow: review, return, verify, approve, close (items 12, 13, 14, 23, 25)

#	Account	Do this	Point out (spec items)
1	sector_off	Note the notification bell. Incidents › "Needs my action"; open the new incident. Press "Return" and enter a reason.	Notification of a new submission (23); return requires a reason (14)
2	batt_op	Open the notification. The "Returned for corrections" banner shows the reason. Edit the report and press "Resubmit report".	Correction by the filer after a return (14); the filer edits only while Draft/Returned (25)
3	sector_off	Open the incident again and press "Review". Add a comment.	Supervisory review; comments, used for investigation notes (12, 14)
4	sector_off	Press "Modify report", change the severity, press "Save changes" and enter a reason.	Supervisor modifies the report before approval: reason required, "Modified by reviewer" in the timeline, old and new values in the audit trail, filer notified (14, 24)
5	verifier	Open it from "Needs my action"; press "Verify", then "Approve".	Authority-based actions at each stage (13, 14)
6	hq_admin	Open it and press "Close".	Draft → Submitted → Reviewed → Verified → Approved → Closed (13)
7	any	Scroll to "Timeline".	Every step with user, time and notes, in order (12)
8	batt_op	Open the closed incident: there is no Edit or Delete button. Show Administration › "Workflow" (hq_admin) for the rules.	Finalised records cannot be altered; nobody acts on their own report (25, 13)
9	sector_off	Optional: open another submitted incident and press "Reject" with a reason.	Reject (14)

Scene 4: Tracking and search (items 15, 16)

#	Account	Do this	Point out (spec items)
1	sector_off	Type the new reference number in the header search ("/" jumps there).	Track by reference number (15)
2	sector_off	Incidents: views "All incidents", "My incidents", "My drafts"; open "Filters": date range, Sector/Battalion/BOP, category and incident type, severity, status, "Waiting time" › "Overdue only"; change "Sort order".	Advanced search and filters (16)

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

Scene 5: Dashboard, GIS map, analytics and trends (items 17, 18, 19, 20)

#	Account	Do this	Point out (spec items)
1	hq_admin	Dashboard: total, open, awaiting review, "Verified", approved/closed, "Waiting for you", charts; change "Period". Compare with batt_op's dashboard.	Role- and scope-based dashboard (17)
2	hq_admin	GIS map: the map flies in to the incidents; each point is a BOP with its number of incidents. Point at a BOP (latest two incidents), then click it: the map zooms in, the popup lists the latest incidents, and zoom in / zoom out / close (×) buttons appear.	Map dashboard with markers by severity; zoom to a location (8, 18)
3	hq_admin	In the popup press "Show all N incidents": the register opens filtered to that BOP. Press "Back to the map": the same view and popup return. Press × to return to the whole country.	Map linked to the incident register (16, 18)
4	hq_admin	Filter "Critical"; switch "Map display" to Clusters (click a cluster to zoom in) and Heatmap.	Configurable map display and filters (18, 19)
5	hq_admin	Analytics: key figures, the trend with the previous year, incidents by severity, category and sector; click the "Smuggling" bar: the matching incidents open.	Statistics by type, location, unit, severity; drill-down (19, 16)
6	hq_admin	Analytics: "When incidents happen" (busiest hour, night share, weekdays), "Hotspots (BOPs)" and "Sector risk summary"; choose a sector.	Frequency by time and location; risk by unit (19)
7	hq_admin	Analytics › "Trend granularity": Daily, Weekly, Monthly, Quarterly, Yearly; "Previous year" comparison.	Trend analysis (20)

Scene 6: Reports and export (items 21, 22)

#	Account	Do this	Point out (spec items)
1	hq_admin	Reports: choose "Report template" (operational log, statistical & threat summary, high-threat alert digest, sector performance), set the period and filters, press "Update report".	Configurable operational, statistical and management reports (21)
2	hq_admin	Tick "Include full details of each incident"; press "Print / PDF"; show the preview; press "Print" and save as PDF.	Formal printout with letterhead, classification, reference number, signatures; evidence shown (21, 22)
3	hq_admin	Press "Export Excel" and "CSV"; open the files.	Excel/CSV export of permitted data (22)
4	hq_admin	Open the closed incident › "Print / PDF".	Single-incident printout (22)

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

Scene 7: Audit trail and integrity (items 24, 25, 11)

#	Account	Do this	Point out (spec items)
1	auditor	Audit trail: search for the new reference number; see creation, return, review, the reviewer's modification with old and new values, verify, approve, close, evidence views, prints and exports.	Comprehensive audit logging (24)
2	auditor	Press "Verify integrity now".	"Hash chain intact": tamper-evident log (24, 25)
3	auditor	Open an entry ("Inspect"); export with "Excel".	User, IP address, time, details (24)

Scene 8: Administration and configuration (items 46, 47, 3, 6, 9, 44, 45, 55)

#	Account	Do this	Point out (spec items)
1	hq_admin	Administration › "Permissions matrix": tick/untick a module for a role.	Configurable roles and privileges (3)
2	hq_admin	"Categories": "Add category", add subcategories, deactivate one.	Configurable classification without code (6, 47, 55)
3	hq_admin	"Org hierarchy": "Add unit" (Sector, Battalion, BOP).	Configurable hierarchy (9, 47)
4	hq_admin	"Security & system": the "System status" overview (API, database, e-mail, sign-in method), then the section menu: "Workflow" (overdue days), "Archiving & retention" › "Run archiving now".	Retention and archiving settings; status at a glance (44, 46, 47, 48)
5	hq_admin	Open a closed incident › "Archive"; Incidents › Filters › "Archive" › "Archived records"; "Restore".	Archived records keep their audit trail and stay retrievable (45)
6	hq_admin	"Users & roles": create a test user, sign in with it and fail the password five times; back as hq_admin, "Unlock" and "Reset password".	Lockout and account administration (29, 46). Use a test user, not a demo account

Scene 9: Platform, devices and integration (items 1, 2, 30, 31, 41, 42, 43, 58)

#	Account	Do this	Point out (spec items)
1	any	Point out that the three browsers in use are Chrome, Edge and Firefox.	Browser support (42)

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

#	Account	Do this	Point out (spec items)
2	any	Open the demo address in the phone's browser and install it: user menu › "Install app" (Chrome) or Share › "Add to Home Screen" (Safari). Open it from the home screen; show the tablet too.	Progressive web app installed from the browser, no app store; responsive on desktop, laptop, tablet, phone (41, 58)
3	any	Switch the language with "EN / বাং" in the header.	English and Bangla (43)
4	any	Open https://birds-demo.onrender.com/api/docs.	Secure REST API, OpenAPI 3.1 (31, 58)
5	—	Explain the three tiers and the PostgreSQL database with the Technical Proposal, section 5.	Architecture and database (1, 2, 30)

Scene 10: Items delivered during implementation (items 32, 33, 34, 35, 36, 37, 38, 39, 40, 48, 49, 50, 51, 52, 53, 54, 56, 57)

#	Account	Do this	Point out (spec items)
1	hq_admin	Administration › "Security & system" › "Directory sign-in (AD/LDAP)" panel (marked DEMO).	Directory sign-in ready to configure with BGB details (32)
2	hq_admin	Administration › "Operations": backup and restore, disaster recovery, high availability, performance, logs (marked DEMO, sample values).	How 34–40 and 48 will operate in production
3	—	Refer to the Technical Proposal sections 6–15 and Annex A for storage, security testing, documentation, training, warranty, deployment and UAT.	33, 37, 49–57

3. Value additions tour (scene 11, optional)

After the specified items, show the features offered beyond the specification (Annex B).

#	Account	Do this	Point out (spec items)
1	sector_off ↔ verifier	Messages › "New message"; send text and a voice message (microphone); open "Group settings" of a group.	Secure messaging on BGB servers; voice messages; group admin controls
2	sector_off → verifier	Press "Call" in a conversation; answer on the other browser or phone; then open "Call log".	Voice calls with call log; call audio is never stored
3	phone	Close BIRDS on the phone and send it a message, then call it.	Push notification; ringing call with Answer/Decline
4	any	Incident page › "Related incidents"; Dashboard › "Waiting for you".	Related incidents; work queue

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

#	Account	Do this	Point out (spec items)
5	hq_admin	GIS map: click a point › "Show all N incidents" › "Back to the map"; Analytics: click any bar or trend point.	Map drill-down; click-through from every chart; hotspots and time patterns

4. Quick reference by specification item

Item	Account	Where to show it	Scene
1. System Type	any	Whole application	9
2. Deployment Architecture	—	Technical Proposal §5; /api/docs	9
3. User Management	hq_admin	Administration › Users & roles; Permissions matrix	1, 8
4. Authentication	any	Sign-in page; Security & system › Password policy	1
5. Incident Registration	batt_op	New incident	2
6. Incident Classification	hq_admin	Administration › Categories; form drop-downs	2, 8
7. Incident Details	batt_op	New incident; incident page	2
8. Geographical Information	batt_op	New incident › Location (Detect GPS); incident map	2
9. Border Sector Information	batt_op / hq_admin	Form › Location; Administration › Org hierarchy	2, 8
10. Evidence & Document Management	batt_op	Form › Details and evidence; incident › Evidence	2
11. Media Metadata	any	Incident › Evidence › Verify integrity	2
12. Incident Timeline	any	Incident › Timeline and Comments	3
13. Workflow Management	all roles	Incident action buttons; Administration › Workflow	3
14. Verification & Approval	sector_off / verifier	Return, Review, Modify report, Verify, Approve, Reject	3
15. Incident Tracking	any	Reference number; header search	2, 4
16. Search Facility	any	Incidents › views and Filters (incl. incident type)	4
17. Dashboard	any	Dashboard	5
18. GIS/Map Dashboard	any	GIS map	5
19. Analytics & Statistics	hq_admin	Analytics	5
20. Trend Analysis	hq_admin	Analytics › Trend granularity	5
21. Reporting	hq_admin	Reports	6

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

Item	Account	Where to show it	Scene
22. Export	hq_admin	Reports › Print / PDF, Export Excel, CSV	6
23. Notifications	any	Notification bell; Profile › Notifications on this device	3
24. Audit Trail	auditor	Audit trail › Verify integrity now	7
25. Data Integrity	batt_op	Closed incident (no Edit/Delete); Audit trail	3, 7
26. Data Security	any	Permissions by role and scope; Technical Proposal §6	1, 8
27. Encryption	any	HTTPS address; Technical Proposal §6	1
28. Session Security	hq_admin	Security & system › Session controls; My profile	1
29. Password Security	hq_admin	Security & system › Password policy & lockout; Users › Unlock	1, 8
30. Database	—	Technical Proposal §5	9
31. API / Integration	any	/api/docs	9
32. AD/LDAP Integration	hq_admin	Security & system › Directory sign-in (DEMO)	10
33. File Storage	hq_admin	Security & system › Archiving & retention; Technical Proposal §5	10
34. Backup	hq_admin	Administration › Operations (DEMO)	10
35. Disaster Recovery	hq_admin	Administration › Operations (DEMO); Technical Proposal §8	10
36. High Availability	hq_admin	Administration › Operations (DEMO); Technical Proposal §8	10
37. Scalability	—	Technical Proposal §9	10
38. Concurrent Users	—	Technical Proposal §9 (load test)	10
39. Performance	—	Technical Proposal §9	10
40. Availability	—	Technical Proposal §8	10
41. Mobile Responsiveness	any	Phone and tablet; install as PWA from the browser	9
42. Browser Support	any	Chrome, Edge, Firefox	9
43. Localization	any	EN / বাং switch	9
44. Data Retention	hq_admin	Security & system › Data retention	8
45. Data Archiving	hq_admin	Incident › Archive / Restore; Incidents › Archive filter	8
46. Administrative Module	hq_admin	Administration (all tabs)	8

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com

Item	Account	Where to show it	Scene
47. Configuration	hq_admin	Administration tabs	8
48. Logging & Monitoring	hq_admin	Audit trail; Administration › Operations (DEMO)	10
49. Security Hardening	—	Technical Proposal §6	10
50. Vulnerability Assessment	—	Technical Proposal §6, §12	10
51. Source Code / Ownership	—	Technical Proposal §14	10
52. Documentation	any	/api/docs; Technical Proposal §14	10
53. Training	—	Technical Proposal §13	10
54. Warranty & Support	—	Technical Proposal §15	10
55. Customization	hq_admin	Administration › Categories, Org hierarchy, Workflow	8
56. Deployment	—	Technical Proposal §11	10
57. Acceptance Testing	—	Technical Proposal §12	10
58. Future Expansion	any	/api/docs; Messages, Call log	9, 11

Address : House 5, Road 2, Block C, Banasree, Rampura, Dhaka 1219
Phone : 01755253505, 01730357123, 01701072702
E-mail : graceinternational98@gmail.com
